

## CF Instructions for Purchased e-Ticket “Transfers” & Table Ticket Distribution

### *Individual Ticket Transfers (or more than one ticket purchased intended for the same individual)*

- 1) Forward the email received from your order to your intended recipient.
- 2) They can use the email QR code or print the PDF for entry.
- 3) **Do NOT forward to more than one recipient, as a QR code can only be used once – the first QR scanned at the GATE on the day of the Crab Feast is the only valid ticket!**

Note: if you are sending more than 1 ticket to an individual AND that individual needs to forward them on to other individuals as another transfer, or that individual’s party will be arriving at separate times, then use the instructions below for multiple tickets bought in a Table Order.

### *Multiple tickets bought in a Table Order needing distribution to multiple guests (Preferred Dining and Reserved Seating)*

It is recognized that the entire Table party will likely not arrive at the same time and/or be coming from different geographic locations. There are two options recommended for a buyer of Table Tickets (or multiple individual tickets) that wants to divide these tickets up among more than one guest.

- 1) Take a picture (or screen shot or cut & paste) of each individual ticket and attach to an email to send to each individual in your party. Each guest can either have their email QR code scanned or print your attachment to be scanned at the Gate. **OR...**
- 2) Print the PDF ticket copy that came with your order, and manually cut up the tickets and get them in some manner to each individual in your party.

**Please make sure that you send a different ticket number to each guest. Each ticket in your order will be numbered 1 of X, 2 of X, etc. If two guests receive the same ticket number, only the first guest to be scanned at the Gate will be admitted.**
